Dear Mayor Breed: I want to state that I think it essential that you make it clear to us that your opinion re the events at Mr. Carmody's home aligns with California law protecting the press from revealing sources. I've not read anything that states that Mr. Carmody is suspected of a crime. If he is, and if that justified the warrant, your office needs to say that. If he has not been suspected of a crime, but only received leaked information as is legally permitted by laws protecting journalists, there are very serious questions about the behavior of the police. And I think your office also needs to speak to why a sledge hammer and drawn weapons were "required" in this seizure of property, be that seizure legal or not. Your citizens are paying attention to this. Press freedom, being attacked by the White House daily, requires your office's vigilance against attack. If it is determined that your office underperforms in this duty, I would find it impossible to vote for you in the future, as would others.

This raid was a complete miscarriage of justice. The mayor needs to apologize on behalf of the city. We have freedom of the press in our city. This is not Russia or North Korea. Brian Carmody is a long-time stringer/reporter. If reporters are not allowed to gather the truth then we the people will never know the truth. The mayor needs to speak out about this.
Sincerely,

Sandra Stricker.

Dear Madam Mayor,

I read with great distaste an account of a recent police raid on a reporter in San Francisco, Bryan Carmody.

As I am quite sure you are familiar with the events I will cut to the chase. Your actions are pure hypocrisy. Freedom of the Press is not a bludgeon to hit your political opponents with when they do something you don't like. It is a code that all governments and elected officials are obliged to respect and obey.

Your actions are a disgrace to your office. You are a hypocrite. Were there lighter words I would use them, but there are not.

Yours,

Erick Sadler

Dear Mayor Breed,

Please condemn the raid on a journalist.

I was proud that Jeff Adachi was our public defender, and I am deeply sad we lost him. But the investigation of a leaked police report about Adachi's death is not a life-or-death matter. The investigation doesn't require now-or-never, action-movie policing.

The next step---at most---would have been to take the journalist to court. A raid was brutality. Please condemn it.

Sincerely,
Jay Martin

P.S. Thank you for responding to the PG&E bankruptcy by asking the SFPUC to investigate the City's options. The City needs to be in the negotiations while major changes are being planned.

I was stunned to learn about the outrageous behavior of Chief Scott in regard to the raid of Carmody's house in their investigation of the Adachi leak, Mayor Breed. I'd simply never believed such an oppressive and unlawful action could be conducted by any American police force, and I hope you will find reason to dismiss him as a result. We simply cannot countenance such behavior . . . ever, anywhere.

Sincerely,

David Trollman

Dear Mayor Breed,

I have been a staunch supporter of you since you first ran for supervisor (D5 born and bred). And I trust that your policies and belief systems generally align with my own. However, you're support of the blatant violation of Bryan Carmody's rights as journalist are a serious concern. Our president has already put a target on the media, the internet has destroyed the local news industry, and we cannot have the Mayor of our city - a place known the world over for its support of civil liberties and personal freedom - supporting the violation of our freedom of press. Please reconsider your stance and acknowledge that while the leak may have been mean spirited and caused emotional pain to Adachi's family, the answer is not to strong arm citizens and trample their core rights. That is and was shameful and should not be tolerated in our city.

Thank you,
Tobin O'Donnell
